

In Memoriam

We announce with deep regret the passing away of Dr. Grete Jeenel-Sternberg, on April 24, 1956, at the age of 69. She was a very active and highly appreciated Adlerian therapist and lecturer in Breslau, Germany. When Hitler came to power she courageously saved many of her friends by helping them leave the country, endangering herself and family. She was discovered and confined to a concentration camp. After her liberation she came to the United States with her son and husband who at all times remained loyal to her.

Dr. Jeenel continued to be keenly interested in the Individual Psychology movement though poor health prevented her from taking an active part in our work here. She will be gratefully remembered by all those who knew her personally.
