

Editorial Statement

This issue marks the end of the *The Individual Psychologist*. We will now be *Individual Psychology: The Adlerian Journal of Research, Theory, and Practice*. The previous 18 years have been building toward this end. The merger with the *Journal of Individual Psychology* makes this possible: A new journal where quality manuscripts of practical use can be made available to a large readership.

I would like to take this space to thank all of you who have been a part of this progression, especially the preceding Editors.
